

Night zero 9:00 p.m.

7 years ago I remember that I got a security job at a closed family business I felt scared when my cousins told me I needed to do a second shift this week but I knew this would happen again so I was prepared I grabbed the box from my attic that said "wait until second shift at pizza place" I grabbed my outfit among other things and drove there.

night one 12:00 a.m.

"Good ol Rotten home of an office" I say thinking about my great great grandpa my name is Jeremy Jeremy after you know the Athens don't you does the bite of '83 or '87 remind you anyway pizza was on my mind.

Night one 2:00 a.m.

The cameras are of course my friend what do you expect from a half paranoid 23-year-old working somewhere that is most likely haunted I saw a monster known as Chica the Chicken "what is going on!?" I say surprised while I close the door every night I spend here makes me go more and more insane. "God please bless my soul" I say nervously "get me through five nights at this place" "amen!" I finished my prayer.

Night one 5:00 a.m.

I searched through Chica's file that my grandmother made for me on my 16th birthday during Wednesday during that week says that she loves pizza. I pull out my recipe book and notice the pizza recipe "I'm safe from one!" I yell and then I hear the bell of freedom.

Day one 9:00 a.m.

I was tired after making 6:00 Afton family special pizzas with double pepperoni I also had them be an XL size so that would take her an hour to eat each one. after I decided to make another pizza for my friends I thought they would be happy you ate them together and we talked about what it's been happening recently.

Day one 5:00 p.m.

I woke up to my mother giving me some food and energy drinks thanks for the food I say you're welcome my mom says smiling. then I thought to myself there's got to be a better way to get out of here out of this shift what do I do? "maybe I just survive?" I think to myself anyways I think I can do that.

night two 12:00 a.m.

I lied I made Seven only because I need to one myself what? Do you think you don't think I need to eat of course I do at least I can eat and drink G-Fuel. I hear something on the telephone "Foxy lives in the Pirate Cove and if you don't look at the cameras you are probably dead" So I looked at the cams and I went to Pirate Cove and I didn't see him "uh oh" I said running the turn on the lights and I saw foxy "dag Nabbit" I say it and close the door.

night two 3:00 a.m.

I look into the kitchen and see that there are only two pizzas left my mother quietly give me that I think of it too loud 75% my display says on my last shift I got down to 5% which was scary to me my cell phone is only at 5% "come on" I think Finally waiting till 6:00 a.m.

night two 5:00 a.m.

a shipment comes that's full of different random objects my father says we are remodeling the place and we need to update this place to meet Health codes I want to find out how to get the animatronics into safe mode then I hear the clock reach 6:00 a.m. my Journey Begins. as I leave my office I think to myself there's got to be a way to get into here maybe in the backstage maybe right next to the stage maybe in the wall of the stage I don't know what I'm thinking about but I'm just going to find out soon I think.

Day Two 8:00 a.m.

I called my dad and he said that the safe mode box was new each animatronics home but I needed to wait until the night there was a safe room with a vent there is a van in the office but only goes to a ventilation room right next to the stage the vents only open at night so is a problem for me "I'm dead" I think to myself.

Day two 3:00 p.m.

I love the Pirate Cove foxy is there so I boarded up and he is probably a Ghana I made more pizza with my cousin for fun I am now pretty much content enough to live my way through the day we eat pasta together which is kind of fun I love pasta pasta is one of my favorite foods besides pizza.

night 3 12:00 a.m.

my cousin is finally hanging out with me her name is Sophie Sophie is very smart and can turn things off before you can even blanket and can charge things so fast that you can't even believe it we decide we should go into the vent we open the cover and we jump into it.

night three 2:00 a.m.

it's been 2 hours Sophie says quietly but surprised we got into The main ventilation room I see Freddy get up. "must be out of power" I say "there he goes" Sophie continues "we got this" I say kind of nervously to be honest I've done this once before 7 years ago to this week actually. felt like I was almost going to die multiple times. my dad was on shift during the bite of '83 in another location so I'm worried when we reopen something like this is going to happen again but we're going to make sure that doesn't happen by using the puppet hopefully.

night three 4:00 a.m.

you're grabbing the safe mode box and turn on safe mode for all animatronics but I will take two more nights for it to activate." Let's go back to the office." I say "I look for Danger!" Sophie says "okay." I reply and we watch them for 2 hours. I'm surprised how much they circled around where we were it's like they knew that we were above us it's just glad that they didn't get us or anything like that.

Day 3 9:00 a.m.

I asked Sophie "why did we do this?" she responds "because we can?" okay I guess I say after all of that I went home early to sleep and jot down some notes I thought that if I would do this it would help relieve my mind of all this stress.

Day 3 6:00 p.m. notes

day three of my shift for night for I am worried that Foxy's cage will be gone empty broken or something like that during this I will be ready for night five. - Jeremy A.

day three 11:00 p.m.

I sleep until an alarm woke me up I grab the flashlight off we went I felt like I was in the midnight motorist mini game of the Freddy game compilation. bear with me when I say that I made some of those games with somebody called Scott a Game Dev who usually makes 8-bit games.

night four 12:00 a.m.

what trickling down my face and I am feeling the fan very heavy" I want to go home!" my little sister says "no!" I say and continued "let's get you ready for a nap, trust me you'll have nightmares for weeks on end." "fine." she says curling up in the spare chair in the office. A lullaby comes on but I didn't play it "uh-oh" I say ramming the power pack into the computer.

Night four 4:00 a.m.

my sister woke up to a fright "what's going on?!" She whales "we're losing hope!" I replied. we were at 25% battery. living in a big household meant that food was all of it the Pizza Pasta cannoli and all of the rest that's all I remember before I blacked out.

Day 4 5:00 p.m. "I'm awake" I think happily "I'm alive!" my sister says as well now let's let's start that final night I get my cousin and sister "okay" I say "my sister and Sophie will go to the safe room while I stay in the office is that okay?" "okay" they reply afterwards I treated them to some pizza of course I made it myself I love pizza everything about pizza is delicious that's just an opinion that I would State myself but all this is just opinions.

night 5 12:00 a.m.

okay I say when the clock hits one we split I finish ready to go somewhere but I will stay here tonight what do we do my sister says just waking up from the car ride here so if you replies we split in less than an hour you'll come with me though I checked the camera and the lights and close the door "Not Bonnie, Foxy's not his Hideout." I say then I open the door "we're safe" I say continuing "split up!"

Night 5 1:00 a.m. vents.

my sister 9 years old tired and small I gave her some energy too she went nuts Sophie where are we my sister asked about the safe room but animatronics could be after us my sister says fine if we can get through this together even if the noise and face the chicas the last thing I see Pizza the last thing I eat water the last thing I drink we will die together. wow she is amazing

Sophie says amazed I tell Sophie through my Faz-Watch "Chicka at 5:00!" "thanks!" Sophie replies, turning somewhere as Chicka comes back to them.

Night 5 2:00 a.m. office

"Power, 75% O2, good animatronics are on stage" I say to my fast watch my sister replies "if I don't see you again I love you." I reply "I do too" I'm guessing it's 2:30ish the time when they go full hard mode after 3:00 we will get to safety I say hallucinations taking over "you will, with us." That sounded like Freddy.

Night 5 4 a.m. vents

"we're above the safe room" Sophie says into her faz-watch "the vent is at 6:00 and then five steps forward and three right." I speak calmly into the "watch when you're in, use your faz-pack to make a ladder, then get everybody out of here "I'm counting on you girls." I finish Sophie opens the vent and sees people half dying "let's get them out into the office." Sophie said.

night five 5:00 a.m. office

"Howard!" I say "Jeremy!" He says back "one more hour and we can safely end this job and it will be way safer to do this job" Sophie comes in in from the vent Welcome to our new home I say.

3 months later

the opening of Freddy's pizza was amazing. The band went to do their daily, hourly, even minutely performances every day. We made a beautiful apartment complex for us Afton's instead of metal cell for purple guy himself. Everything was fine. We are totally safe.
